

School of Computer Science – Coursework Issue Sheet

Session	2025-2026	Semester	Autumn (Full Year Module)
Module Name	Individual Dissertation Single Honours	Code	COMP3050
Module Convenor	Dr Matthew Pike		

Coursework Name	Interim Report	Weight	8%
Deliverable	An interim report consists of an outline with progress update and draft content. A report structure example is provided in the lecture slides. Past report examples are available on Moodle for reference.		
Format	<ul style="list-style-type: none"> • The document should consist of a single PDF file. • The word count for this assignment is limited to 5000 words, which is roughly equivalent to 15 A4 pages. Please note that the word limit does not apply to the cover page, references, or appendices. However, all other content within the document will contribute to the word count. • There is no prescribed template, format, or referencing style that must be followed for this assignment. • If you require guidance on these aspects, we recommend consulting your supervisor for advice. 		

Issue Date	Beginning of Academic Year
